THE

LONDON, EDINBURGH, AND DUBLIN

PHILOSOPHICAL MAGAZINE

AND

JOURNAL OF SCIENCE.

CONDUCTED BY

SIR OLIVER JOSEPH LODGE, D.Sc., LL.D., F.R.S.
SIR JOSEPH JOHN THOMSON, O.M., M.A., Sc.D., LL.D., F.R.S.
JOHN JOLY, M.A., D.Sc., F.R.S., F.G.S.
RICHARD TAUNTON FRANCIS

AND

WILLIAM FRANCIS, F.L.S.

"Nec aranearum sane textus ideo melior quia ex se fila gignunt, nec noster vilior quia ex alienis libamus ut apes." JUST. LIPS. *Polit.* lib. i. cap. 1. Not.

VOL. XLIX.—SIXTH SERIES.

JANUARY—JUNE 1925.

LONDON:

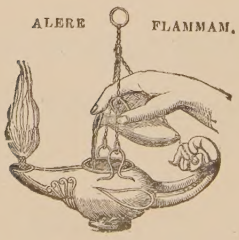
TAYLOR AND FRANCIS, RED LION COURT, FLEET STREET.

SOLD BY SMITH AND SON, GLASGOW;—HODGES, FIGGIS, AND CO., DUBLIN;—AND VEUVE J. BOYVEAU, PARIS.

"Meditationis est perscrutari occulta; contemplationis est admirari perspicua .... Admiratio generat quæstionem, quæstio investigationem, investigatio inventionem."—*Hugo de S. Victore.*

——"Cur spirent venti, cur terra dehiscat,
Cur mare turgescat, pelago cur tantus amaror,
Cur caput obscura Phœbus ferrugine condat,
Quid toties diros cogat flagrare cometas,
Quid pariat nubes, veniant cur fulmina cœlo,
Quo micet igne Iris, superos quis conciat orbes
Tam vario motu."

J. B. Pinelli ad Mazonium.



CONTENTS OF VOL. XLIX.

(SIXTH SERIES).

NUMBER CCLXXXIX.—JANUARY 1925.

Page

Prof. H. Bateman on the Field of an Electron at Rest and in Uniform Motion 1
Prof. H. Bateman on the Theory of the Condenser in a New Electrostatics 19
Mr. H. Bell on the CuH Molecule and its Band Spectrum. 23
Mr. B. Venkatesachar on the Influence of the Length of the Radiating Column on the Width of Spectral Lines. (Plate I.) 33
Messrs. N. K. Sur and R. N. Ghosh on Absorption Spectrum of Potassium Vapour at High Temperatures. (Plate II.) 60
Dr. S. K. Banerji on the Depth of Earthquake Focus 65
Mr. L. F. Richardson on Turbulence and Vertical Temperature Difference near Trees 81
Mr. G. W. Scott Blair on Periodic Precipitation in Dilute Gelatine Gels. (Plate III.) 90
Mr. W. H. George on the Forces at the Ends of a Vibrating String. 97
Dr. J. A. Wilcken on the Reflexion of Waves penetrating normally into a Stratified Medium 107
Prof. R. Whiddington and Mr. F. A. Long on the Application of the Ultramicrometer to the Microbalance 113
Messrs. S. Bhargava and R. N. Ghosh on the Elastic Impact of the Pianoforte Hammer.—II. 121
Prof. R. C. Tolman on the Problem of the Quantitative Formulation of Bohr's Correspondence Principle 130
Mr. W. P. Widdowson and Dr. A. S. Russell on the Period of Mesothorium 2. 137
Dr. J. A. Wilcken on the Poynting-Flux in a Gradually Varying Dielectric 140
Mr. S. Ono on Orographic Precipitation 144
Prof. J. M. Ganguli on a Method of comparing Inductance and Capacity 165
Dr. B. B. Ray on the Dependence of the Kα Doublet with different Chemical Compounds 168
Mr. E. L. Nicolai on a Dynamical Illustration of the Pressure of Radiation 171
Prof. M. Eguchi on the Permanent Electret 178
Mr. J. H. Smith on Abnormal Reflexion of X-Rays. 192
Prof. E. F. Burton and Mr. J. E. Currie on the Mutual Action of Charged Particles in Liquid Media 194
Dr. R. T. Dunbar on the J-Phenomena and the Quantum-Theory of Scattering of X-radiation 210
Dr. W. N. Bond on the Production of Sub-Harmonics. (Plate IV.) 236
Dr. D. M. Wrinch on Fluid Circulation Round Cylindrical Obstacles. 240
Prof. C. G. Barkla and Dr. S. R. Khastgir on the J-Transformation of Scattered X-Rays. 251
Mr. A. W. Simon on a Quantitative Analysis of a Four Carrier, Voss Machine 257

Page
Dr. Chien Cha on the Incident and Emergent Velocities of Photo-Electrons emitted from Thin Platinum Films 262
Sir J. B. Henderson on a Gyro Compass incorporating two Gyroscopes 273
Dr. Norman Campbell on Dimensional Analysis 284
Mr. A. H. Davis on the Cooling Power of a Stream of very Viscous Liquid 285
Notices respecting New Books:—
Mr. J. R. Pannell's The Measurement of Fluid Pressure and Velocity 286
Prof. L. V. King's On the direct numerical Calculation of Elliptic Functions and Integrals 287
Collected Researches from the National Physical Laboratory.. 287
Prof. J. Prescott's Applied Elasticity 288

NUMBER CCXC.—FEBRUARY.

Mr. C. E. Wynn-Williams on a Piezo-Electric Oscillograph. (Plate V.) 289
Dr. T. Barratt and Mr. R. M. Winter on some New Methods for the Measurement of Thermal Conductivity 313
Mr. J. D. Morgan on the Thermal Theory of Gas Ignition by Electric Sparks 323
Messrs. J. Taylor and W. Clarkson on a Critical Resistance for "Flashing" of Air Discharge-tubes 336
Prof. B. H. Wilsdon on Chemical Affinity and Electronic Structure. —Part I. The Non-polar Bond 354
Messrs. E. W. B. Gill and J. H. Morrell on Short Electric Waves obtained by the use of Secondary Emission 369
Mr. P. Du Val on the Discriminations between Past and Future... 379
Mr. D. R. Hartree on Dr. Turner's Paper "Quantum Defect and Atomic Number" 390
Mr. R. W. Roberts on the Magnetic Rotary Dispersion of certain Paramagnetic Solutions 397
Mr. W. Anderson on the Principle of Huygens 422
Prof. G. E. M. Jauncey on the Theory of the Width of the Modified Spectrum Lines in the Compton Effect 427
Mr. U. Doi on a New Discussion of Bucherer's Experiment. (Plate VI.) 434
Dr. H. J. E. Beth on the Stabilization of Instable Equilibrium by means of Gyroscopic Forces 447
Mr. G. E. Bell on the Impact with Liquid Surfaces of Solid Bodies of Various Shapes. (Plate VII.) 451
Prof. J. Rice on Eddington's Natural Unit of the Field, and Possible Relations between it and the Universal Constants of Physics 457
Mr. W. E. Garner on the Critical Increment of Chemical Reactions. 463
Prof. J. Proudman on Tides in a Channel 465
Dr. W. J. Walker on a Modification of Rankine's Theory of Earth Pressures on Retaining Walls 476
Messrs. C. R. Burch and J. Bloemsma on an Application of the Periodogram to Wireless Telegraphy 480
Messrs. A. E. Ruark and G. Breit on a Proposed Test of the Space Quantization of Atoms in a Magnetic Field 504

Page
Messrs. E. F. Relf and L. F. G. Simmons on the Frequency of the Eddies generated by the Motion of Circular Cylinders through a Fluid 509
Prof. A. W. Conway on Strain Components in Curvilinear Co-ordinates 511
Messrs. E. Bäcklin, M. Siegbahn, and R. Thoræus on "Semi-optical" Lines in the X-ray Spectra 513
Dr. L. B. Loeb on Gas Ion Mobilities 517
Notices respecting New Books:—
John William Strutt, Third Baron Rayleigh 519
Dr. C. Davison's A History of British Earthquakes 519

NUMBER CCXCI.—MARCH.

Mr. Y. Nishina on the L-absorption Spectra of the Elements from Sn (56) to W (74) and their Relation to the Atomic Constitution. (Plate VIII.) 521
Prof. G. Breit on the Motion of Free Electrons in Black Body Radiation, and the Interaction between Radiation and Matter 537
Mr. H. B. Wahlin on the Mobility of the Positive Ions in Air 566
Prof. J. Proudman on a Theorem in Tidal Dynamics 570
Mr. L. R. E. Menges on Kinematics 579
Mr. A. E. Ruark on the Proof of the Corollary of Carnot's Theorem. 584
Mr. R. W. James on the Influence of Temperature on the Intensity Reflexion of X Rays from Rocksalt 585
Mr. T. Iredale on Adsorption from the Gas Phase at a Liquid-Gas Interface.—Part III 603
Notices respecting New Books:—
Lieut.-Col. E. Kitson Clark's The History of One Hundred Years of Life of the Leeds Philosophical and Literary Society. 628
M. L. Dunoyer's La Technique du Vide 628
Dr. H. Jeffreys's The Earth, its Origin, History, and Physical Constitution 629
Intelligence and Miscellaneous Articles:—
The International Critical Tables 630

NUMBER CCXCII.—APRIL.

Dr. F. Ehrenhaft on the Electrical Behaviour of Radioactive Colloidal Particles of the Order of 10^{-5} cm. as observed separately in a Gas 633
Mr. A. L. Griffith and Dr. A. W. Porter on Eddies formed behind Apertures through which Air is Streaming 649
Prof. L. M. Alexander on a New Determination of the Constant N of Avogadro 663
Prof. J. R. Partington and Mr. M. F. Carroll on the Specific Heats of Carbon Monoxide and Hydrocyanic Acid Vapour 665
Mr. A. C. James on the Rectification of Alternating Currents by Crystals 681
Mr. Wm. S. Kimball on Space-Charge and Thermionic Currents .. 695
Mr. H. Sirk on Molecular Dynamics 708

Page

Messrs. G. Subrahmaniam and D. Gunnaiya on Variation of Logarithmic Decrement with Amplitude and Viscosities of certain Metals 711
Mr. A. L. Kimball on Internal Friction as a Cause of Shaft Whirling 724
The Research Staff of the General Electric Co., Ltd.: A Class of Equivalent Electrical Networks 728
Prof. G. N. Lewis on Ultimate Rational Units and Dimensional Theory 739
Sir O. J. Lodge on Units and Dimensions 751
Messrs. L. de Broglie and A. Dauvillier on Semi-optical Lines in the X-ray Spectra 752
Dr. E. J. Cuy on the Electrical Conductivity of Metallic Solid Solutions 753

NUMBER CCXCIII.—MAY.

Sir J. J. Thomson on Radiation given out by Gases through which Electric Discharges are passing 761
Mr. E. T. Hanson on the Theory of the Drift of Projectiles 786
Dr. H. Jeffreys on the Flow of Water in an Inclined Channel of Rectangular Section 793
Dr. N. K. Bose on Wind-Channels in Aerodynamics 808
Mr. O. K. de Foe on Longitudinal Asymmetry in the Direction of Ejection of Photo-electrons 817
Mr. F. W. Bubb on a Quantum Theory on the Asymmetries in the Direction of Ejection of Photo-electrons 824
Dr. A. C. Crehore on the Universal Distance of the Order of 10^{-8} cm. between the Centres of Nearest Atoms 839
Mr. J. E. G. Pilley on an Attempted Electrolytic Separation of the Isotopes of Chlorine and Magnesium 889
Prof. B. H. Wilsdon on Chemical Affinity and Electronic Structure. —Part II. The Polar Link 900
Dr. A. Bramley on the Motion of an Electric Charge 912
Prof. R. A. Millikan and Mr. I. S. Bowen on a Possible Reconciliation of Bohr's Interpenetration Ideas with Sommerfeld's Relativistic Treatment of Electron Orbits 923
Messrs. D. H. Bangham and W. Sever on an Experimental Investigation of the Dynamical Equation of the Process of Gas-Sorption. 935
Messrs. H. E. Buckley and W. S. Vernon on the Crystal Structure of Magnesium Fluoride 945
Dr. A. G. Shenstone on the Arc Spectra of Silver and Copper. (Plate IX.) 951
Dr. A. A. Robb on the Use of Roulettes for Graphical Integration. 962
Dr. J. K. Marsh on Emission Band Spectra of Aromatic Compounds. —Part I. Their Connexion with Infra-Red Absorption Bands and a Classification. (Plate X.) 971
Prof. H. S. Allen on Quantum Magnetic Tubes in Rotation 981
Mr. E. W. B. Gill on a Space Charge Effect 993
Mr. C. J. W. Grieveson on the Absorption of Ultra-violet Light in Dilute Solutions 1006
Dr. G. Green on the Law of Force within the Atom 1020
Prof. F. H. Newman on an Oscillograph Study of the Aluminium Valve. (Plate XI.) 1029

Page
Prof. C. G. Barkla on the J Phenomenon in X-Rays. (Part I.) .. 1033
Prof. J. Rice on Eddington's Natural Unit of the Field 1056
Prof. F. H. Newman on Low-voltage Arcs in Sodium and Potassium Vapours 1057
Messrs. G. E. Bell and F. Y. Poynton on the Dielectric Constants of some Liquids, and their Variation with Temperature. (Part I.) 1065
The Research Staff of the General Electric Co., Ltd.: Generalization of the Theory of Artificial Lines..... 1072
Dr. N. Campbell: Ultimate Rational Units..... 1075
Proceedings of the Geological Society:—
Prof. F. X. Schaffer on the History of the Vienna Basin 1076
Miss E. M. Guppy and Mr. L. Hawkes on a Composite Dyke from Eastern Iceland..... 1077
Dr. J. D. Falconer on the Geology of Nigeria 1078
Mr. A. K. Wells on the Geology of the Rhobell Fawr District (Merionethshire) 1079

NUMBER CCXCIV.—JUNE.

Messrs. J. Taylor and W. Stephenson on the Variation of the "Extinction" Voltages of certain types of Low Tension Discharge Tubes under Different Conditions 1081
Dr. F. C. Toy on the Use of Commercial Plates in Research on the Latent Photographic Image 1104
Messrs. J. H. Crowe and A. H. Newey on the Combustion of Carbon-Monoxide Mixtures..... 1112
Mr. R. C. Howland on the Whirling Speeds of Shafts carrying Concentrated Masses..... 1131
Prof. B. H. Wilsdon on the Magnetic Properties of Atoms and Molecules 1145
Mr. W. Taylor on the Photo-activation of Chlorine 1165
Mr. R. C. Burt on the Constancy of the Total Photo-Current from Sodium with Temperature Change 20° C. to −190° C. 1168
Mr. H. Lowery on the Broadening of Lines in Arc Spectra and the Stark Effect (Plate XII.) 1176
Dr. H. J. E. Beth on the Stabilization of Instable Equilibrium by means of Gyroscopic Forces.—II. 1183
Dr. F. W. Aston on the Mass-Spectra of Chemical Elements.—Part VI. Accelerated Anode Rays Continued..... 1191
Dr. J. H. Shaxby on the use of Monochromatic X-Rays in the production of Laue Diagrams, and on the Structure of Mother-of-Pearl. (Plate XIII.) 1201
Dr. J. K. Marsh on Emission Band Spectra of Aromatic Compounds. Part II.—Their Origin..... 1206
Mr. A. S. Ganesan on the Polarization of Light scattered by Organic Vapours 1216
Mr. J. M. Mullaly on some Chemical Deposits of a Regular Form.. 1222
Dr. A. J. Bradley on the Crystal Structure of Lithium Potassium Sulphate..... 1225
Dr. R. W. Lunt on the Behaviour of Hydrogen in the Discharge due to Alternating Electric Fields of High Frequency 1238
Mr. T. L. Eckersley on Musical Atmospheric Disturbances 1250

Page

Messrs. G. Subrahmaniam and D. Gunnaiya on Variation of Logarithmic Decrement with Amplitude and Viscosities of certain Metals 711
